“Are you with me?”

Stainless steel, copper, aluminum, quartz movements,
spruce, convex mirror

\$ 1400.00 (+tax)

Any group of three may agree or be at odds, depending on the matter at hand. My fascination with pendulum motion led to this assemblage, an allegory for the nature of group dynamics and influence. Their individual characteristics swing these three pendulums at slightly different rates, making them seem to concur or diverge repeatedly. Unity is possible but it takes time and may be tenuous. Their strength and beauty lies in diversity, following their own rhythm and achieving a greater sum.
